Surety Education at your Fingertips

CNA Surety has been providing Surety education to agents for over 25 years. To meet the changing needs of our customers, we recently transitioned our program to a web-based training course. The online program provides the flexibility for our agents and anyone else seeking Surety education to participate in the training at their own convenience. **This option is ideal for agents seeking continuing education (CE) credit for their state.**

Course objectives will facilitate the ability to:

- Provide an overview of Surety bonds
- Identify different types of license, permit and court bonds
- Describe fiduciary/probate bond types
- Describe public official bond types and application/termination process
- Explain fidelity bond types and who might require them
- Identify miscellaneous bond types
- Describe contract bond responsibilities, obligations and underwriting requirements

Upon completion of this seminar, agents will receive five hours of continuing education credit depending on their state's individual requirements.*

This course is another example of CNA Surety's commitment to providing the right technology-based tools to meet your changing needs and to help you operate more efficiently.

**Please refer to our website for a list of states in which CE credit may be pending. Agents will have 30 days to complete the course, and course must be passed in order to receive CE credit. Registration cost is \$50 for the course and \$5 for a state filing fee.*
